SRL East EES

Suburban Rail Loop is a city and state-shaping project that will transform Victoria's public transport system, revitalise Melbourne's middle suburbs and create a long pipeline of jobs.

Suburban Rail Loop East from Cheltenham to Box Hill (SRL East) will connect our growing health, education, retail and employment precincts in Melbourne's east and south east.

SRL East will be built as a standalone 26-kilometre underground rail line that will be fully integrated with the existing public transport network.

A high-tech fleet of energy efficient trains will run on the line, stopping at the six new underground stations at Cheltenham, Clayton, Monash, Glen Waverley, Burwood and Box Hill.

Making a submission

An Environment Effects Statement (EES) and draft Planning Scheme Amendment (PSA) (GC197) has been released for SRL East.

The SRL East EES identifies the project's benefits and potential impacts on people and places during construction and operation and proposes ways to manage any effects.

The SRL East EES and draft PSA is on public exhibition from Friday 5 November until 11:59pm on Thursday 16 December 2021.

During this time, members of the public can view the EES and make written submissions.

Each submission will be treated as a submission about the EES and draft PSA. Only one submission is needed to address all of your views about the project, its effects and the relevant documents.
